BRUSH CREEK, CASEY COUNTY.

Is the INTERIOR JOURNAL aware that just over the hill from the court-house in Liberty, in a Western direction, there is a large community full of life and business activity? Yet it is so. At the foot of the hill near the crossing of Brush Creek, stands Mitchell Taylor's mill where the busy hum of machinery can be heard at all times, and the active passing and moving around of men and teams can be seen from morning till night.

Near at hand stands a handsome residence occupied by a retired old bachelor, Uncle Tommy Jeffries, and his older maiden sister, Aunt Polly. Never was a more hospitable couple. At the beginning of the war they resided on the border between Clinton county, Ky., and Fentress county, Tennessee. It was here the hot breath of the South met the softer Union breezes of Southern Kentucky and they wouldn't mix harmoniously, and Uncle Tommy and his sister being of peaceable turns of mind, retired from the scenes of fierce passions and tumults. On the opposite side of the creek stands the old church house belonging to the Separate Baptists, where regular meetings and Sunday-school are carried on, and occasionally they have singing classes in operation. Within sight stands the new church owned we believe by the United Baptist and the Christian denominations. Religious exercises are carried on here nearly every Sabbath. Two Honesbingschool districts are also here on the creek bottoms in close proximity—Sharpe and Allens, so named from those living in the upper district being mostly Sharpe, and those in the lower being mostly named Allens.

Being in a somewhat reminiscent mood, memory will go back to the past and associate scenes and things with the present. The first wedding I ever attended was nearly 50 years ago, but three ceremonies are distinctly remembered. Memory of the first of the three is doubly vivid from the fact that it fell on the night that Mr. Miller's conviction of the fulfillment of all prophecies, and the intricate mathematical calculations his trans of the Pons Asinorum enabled him to make, led him to advertise a free excursion to glory. His faithful disciples were assembled at the numerous stations along the route, arrayed in ascension robes, confirmed in confidence that the train would be on schedule time by the extraordinary celestial pyrotechnics of that evening, but figures ill, and that train is yet late. However, I followed the elder white folks to the cabin to see Sambo and Dinah cemented by their paeon. My republican friend, Judge W. L. Brown, took more interest in the fair than anybody. His every effort was used in making the visitors feel at home and those who know him can best know how well he succeeded.

As usual much interest was manifested in the fancy torment ring. Miss Mollie Riley, one of the prettiest girls in London, was the successful contestant, and the verdict was a satisfactory one. On Thursday and Friday nights delightful hopes were given at the Riley House, where until a late hour the light fantastic was tripped. Gallant beans and pretty girls from several countries were present and nothing was left undone that would add to the pleasure of Capt. Riley's guests.

A cake walk at Judge W. L. Brown's Thursday night was a very arousing affair. Judge Vincent Boreing, R. M. Jackson and Mr. Pollard represented some of them and made very creditable Negroes. The judges found considerable trouble in awarding the premium which was given to Mr. Jackson and Mrs. Harrocks.

The following Lincoln county people were at the fair Friday: Mr. and Mrs. A. C. Martin, A. C. Dunn, C. C. and John McCloud, Tom, Ben and Will Napiers, John Murphy, Dan Holman, J. N. Saunders, Mrs. Dr. I. S. Hurdett and sister, Miss Jennie Payne, S. H. Tatum, Wade Perkins, Jas. Bronough, Steve Terter, George Dunn. Mrs. Martin took premium on white cake and sweet pickles.

GRIT AND GRACE.

Hold Your Head Up.

I see men on every corner with long laces talking hard times. If they would only let silver and gold do their bidding, let rabbit foot luck alone and go to work all would be well.

Throw that rabbit foot away—Take that horse about down. The "luck" you need is Grit and Grace. If your hont has run aground.

Hold your head up—bare your arm—Look the world square in the face, Trust in God and do the right, Show your "Grit and Grace."

Macawhur-like, you've hung around Every corner in the place, Do the turning up yourself—Show your Grit and Grace.

This world is wide and filled with men Of every skin he and race, But the only ones that win success Are the men of Grit and Grace.

So quit your plining, show the man— Occupy your place, Show to the world of what you're made, Show your Grit and Grace.

If you have the Grit, God will give the Grace—

The sun above you is shining—So stir yourself and go to work And quit your base repining.

"Big Four" to St. Paul.—On account of the Thirtieth Encampment G. A. R. at St. Paul, Minn., September 1 to 4, the Big Four agents will sell tickets at one cent per mile from stations on its lines. Tickets good going August 30 and 31 and Sept. 1; good returning until Sept. 15, with privilege of extension until Sept. 30, 1896. See nearest agent for particulars as to routes.

THE LONDON FAIR

And Other Items Picked up Here and There.

The 12th annual exhibition of the Laurel County Fair Association, like its predecessor, was a glittering success. More stock and better quality was on hand than ever before and the crowds that attended each day greatly exceeded that of any previous fair. The trot and running races each day were hotly contested, the good horses being up having drawn some of the best horses in the State. The free-for-all trot Friday was a very interesting race. There were three starters and the first heat was won in 2:32 by a horse that came all the way from Georgia. Col. S. Henry Traynor's crack, got the next three heats, however, and won the race. In the pacing race another Georgia horse was victor. The running race had eight starters and was won by a Madison county entry. The sweepstakes saddle stallion ring was one of the features of the day. Six splendid animals were exhibited and the blue tie finally went to D. B. Collier, of Madison. The judges were nearly a half hour in rendering their decision. For the first time in years Mrs. John W. Bastin, a former Lincoln county lady, failed to win in the ladies' driving ring. There are few better reinswomen than she, but the judges saw fit to give the premium to Mrs. Harrocks, of Louisville, and Mrs. Bastin's friends were considerably hurt.

As president of the association, Mr. J. T. Williams is hard to beat. Full of life and thoroughly identified with the people, he is certainly the right man in the right place. Bob Jackson, as general manager, was also a success, while Carl Hanner as secretary, was most proficient and all-immodating.

The crowd Friday was variously estimated at from 3,500 to 4,500. The immense amphitheatre was crowded and many were unable to get seats at all. There was little or no drunkenness and to use the old expression, "everything passed off quietly."

My republican friend, Judge W. L. Brown, took more interest in the fair than anybody. His every effort was used in making the visitors feel at home and those who know him can best know how well he succeeded.

GRIT AND GRACE.

Hold Your Head Up.

I don't love to talk politics but I can't keep from saying something about the political complexion of Laurel just now. To make a long story short the people are for Bryan and it will not surprise me greatly to hear that the county has gone for the democratic nominees. That Laurel is republican there is no doubt but the working class is for silver and the majority of the voters of that county belong to that class and why haven't we reason to believe that the democrats, or popocrats, as the Courier-Journal delights in calling us, will carry the county? W. C. Webb, who is labor agitator, wears a Bryan pin and is firm in his belief that the "boy orator of the Platte" will sweep things in November. Mr. Webb's influence is worth many votes to the causes of democracy.

The Masonic Lodge here must be taking in new members quite frequently, as I heard some outsiders say to-day that they often hear unusual noises in the lodge room during lodge hours, as if the much-locked-of goat had gotten loose or incontrollable and was tearing up things generally.

The Preachersville and Stanford pike, apparently, has no toll-gates now. At least they were wide-open to-day, the gates were, and the keepers had gone visiting.

"If you are a democrat why don't you wear a Bryan pin?" was asked me. I don't remember what my reply was, but I do know that my democracy is undoubtedly and that it is not necessary for me to wear an emblem on the lapel of my coat. As Capt. Frank Riley remarked the other day: "I am for the democratic nominees at all times and under all circumstances, it matters not what they be, my cross mark will go under the rooster, who if it wishes, can do my scratching."

The Congressional race in the 11th is the subject of much comment. The result of John D. White's contest will not prevent him from running on and with two republicans in the field the chance of electing a democrat would be exceedingly good. James D. Black, of Barbourville, is being urged by his friends to make the race. Mr. Black is a free silver democrat, a polished gentleman and possesses the distinction of being the most

popular man in his district. Said Dan K. Rawlings the other day, "Mr. Black would carry Knox county beyond doubt. There are republicans galore who would support him and under the existing circumstances I believe he would be elected." Mr. Black is a shrewd politician, a fine man and his election would be an honor to his district.

A Bryan club several hundred strong has been organized at Barbourville. D. B. Faulkner is president and a good one he is. Mr. Faulkner was an original gold man, but he is not one of the stubborn kind and readily submits to the will of the majority.

The Bradley Guards were going through some military tactics when I got to Barbourville Saturday afternoon and the way they handled their guns was a caution. Captain Charlie Tinsley has them under excellent control and much good fighting may be expected of them if they are brought to the test. The boys make a splendid showing and are as good looking a set as one could find in a lengthy search.

Corbin is still growing and there's no telling how large she will get if a half is not called. Our ex-countymen, Mr. T. M. White and Charles Renner, are among the wide-a-wake merchants there and both of them are getting a good deal of this world's goods. The former has a well stocked furniture and undertaking store, while the latter runs a bakery that is making him money hands over fist.

BAPTISTS AND MASON'S GALORE.

PREACHERSVILLE, Aug. 30.—The Baptist church here was crowded to-day to hear Rev. A. V. Sizemore's "Missionary Sermon." This church, composed of about 160 members, made an enviable reputation among the members of the Tate Creek Association (which runs up into the thousands) four years ago for generous hospitality, at which time the Association convened here. All the good things of earth that have a tendency to sanctify the inner man were then spread out with lavish hands, and what I desire to reiterate and emphasize is that though this Association is more or less than 100 years old, never since its organization has it been more royally entertained than at Preachersville. The members here are working members, individually. They realize the fact that the church is a good thing and they push it along—an example worthy of emulation. Brothers love abounds, beautifully and flows abundantly. The Sunday-school in the afternoon is unusually well attended. There are always plenty teachers present, while the scholars enrolled number about 75. There has never been, I understand, an occasion for a call for volunteer teachers to supply the demand, as was the case with the superintendent of the Stanford Baptist Sunday-school, Bro. Joseph C. McClary, some time since. The gray-haired veteran in the Master's cause, Mr. William Thomas Bragg White, is the superintendent here and he knows just exactly how to fill correctly any position—he's a mighty good man. To his Sunday-school the parents go and take their children—they don't send them. The Stanford Baptists ought to follow this example, too. The members of the church here attend the prayer-meetings every Thursday night in greater numbers than the members of the Stanford Baptist church (or the other churches, either), the distance that many of them have to travel being taken into consideration. A protracted meeting begins here next Thursday night, Rev. R. B. Mahony, the pastor, doing the preaching. There are as many handsome ladies in this congregation as in any of its size anywhere. The singing—they use no organ—is excellent, the ladies' voices predominating and of course making most of the melody.

The Masonic Lodge here must be taking in new members quite frequently, as I heard some outsiders say to-day that they often hear unusual noises in the lodge room during lodge hours, as if the much-locked-of goat had gotten loose or incontrollable and was tearing up things generally.

FAVORABLE AND REASSURING, Is The Democratic Outlook in Kentucky.

LOUISVILLE, Ky., Sept. 29.—The bolters of Kentucky are in a dilemma. Driven to desperation by a scarcity of adherents to the single gold standard, they have been forced to resort to a new species of ledgermain. At stated intervals, the press, which was once democratic, with a great flourish of headline has announced, that this and that man, who had been fondled in the cradle of democracy from infancy, had renounced the Chicago platform and the nominees, and were determined to vote for McKinley. These stories circulated with such religious persistency, have been subjected to so much ridicule in the districts in which the interviewed parties lived, for many instances by investigation, these people have been found to be life long republicans, who have never voted a democratic ticket in their lives. While these interviews instead of resulting in harm have been prolific of good in the localities from which they emanated, they are misleading to those persons not conversant with their party affiliation, for the ex-democratic press has endeavored to convey the idea that the rush to a single gold standard would rival the fight that now exists among them to get possession of this appreciation currency.

Each letter that reaches the headquarters of the democratic State campaign committee in this city brings additional assurances of democratic victory in November. Chairman Sommers and Sec. Richardson are more than pleased with the outlook and there is not a county in the entire State from which this most pleasing information has not been received.

Extensive preparations are being made for the reception of Wm. Jennings Bryan in Kentucky. Although the exact date of his arrival has not yet been determined by him, it will be on Sept. 12, or few days thereafter. He will arrive at Henderson where arrangements have been made for a 40 minutes speech. A platform has been erected at the depot and after Mr. Bryan's speech, he will immediately board a train on the "Texas" and start for Louisville, where he will speak in the evening. A number of short talks will be made from the rear of the platform while en route to this city. Mr. Bryan's reception in the metropolis of Kentucky will be one of which he may well be proud. Every road entering Louisville will run excursions for the accommodation of the people along its line and in addition to the tremendous crowd of Louisville people that will be in attendance, it is estimated that from 25,000 to 50,000 people will here from Kentucky and Southern Indiana. Mr. Bryan will remain in Louisville over night and leave the next morning for Lexington, where he is to make his second speech. Short talks, however, will be made at many stations through the blue grass.

Last week many editors of the democratic press of Kentucky, pursuant to a call, met at the headquarters of the State campaign committee in this city and indulged in a general discussion of the plans of the canvass and the attitudes to be taken by the democratic papers. The meeting was a most enthusiastic one and nearly all the editors expressed themselves on the outlook in their counties and Congressional districts, all of which tended to show that democracy instead of losing ground in the old Commonwealth will again be very much in the ascendancy in November next.

—Mrs. Jean Dickinson and Mrs. Isaac Herrin are quite sick. Miss Ada and Sallie McWhorter are visiting friends and relatives in London. Mrs. I. S. Burdette and Miss Jessie Payne attended the London Fair. Mrs. Lucinda Slaughter and Miss Capitoa Slaughter have gone to Manchester on a protracted visit. Mr. Will Hansford, of Manchester, and Mr. Joe Magee, of London, are here. Mrs. E. R. O'neill has moved furniture up from Louisville to furnish Green Briar Springs. Her son-in-law, Dr. Evans, of Lexington, intends having it run by some good party next season in connection with his sanitarium at Lexington. Mr. J. H. Collier has moved his store into his own building. Miss Ella Thompson and sister, of London, have been visiting Miss Fannie Redd. Mr. Lewis is teaching for his sister, Miss Georgia, during her illness. We hope she will speedily recover.

—There will be preaching at the Baptist church by Rev. A. B. Anderson next Sunday and the subject of calling a pastor will be considered. It is to be hoped that all members will be in attendance and that this church will soon be in a flourishing condition.

—Housekeeping.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world than a woman who can breathe again, every step in texture. This state of health is nine cases out of ten comes from derangements of the delicate, feminine organs of generation. The family doctor inquires first concerning these. Most usually they are upon an examination for the most delicate woman, natural, shaks, she is right. Except in very unusual cases of "female weakness" examinations are not necessary. Dr. Pierce's Favorite Prescription is a simple, natural remedy for these. It cures safely, permanently.

SENT IT TO HIS MOTHER IN GERMANY.

Mr. Jacob Eschenben, who is in the employ of the Chicago Lumber Co., at Des Moines, Iowa, says: "I have just sent some medicine back to my mother in the old country, that I know from personal use to be the best medicine in the world for rheumatism. I have used it in my family for several years. It is called Chamberlain's Pain Balm. It always does the work."

For sale by Craig & Hocker, Stanford, Ky.

In a recent letter to the manufacturers, Mr. W. B. Benjamin, editor of the Spectator, Rushford, N. Y., says: "It may be a pleasure to you to know the high esteem in which Chamberlain's medicine is held by the people you serve, where they may not be known. An aunt of mine, who resides at Doster, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were sold without them. The medicines referred to are Chamberlain's Cough Remedy, laudanum for its cures of colds and grippe; Chamberlain's Pain Balm for rheumatism, back pains, in the side and chest, and Chamberlain's Colic. Chamberlain's Medicine is a very popular medicine. These medicines have been in constant use in Iowa for almost a quarter of a century. The people have learned that they are articles of great worth and merit, and unequalled by any other."
